ABDELMOUHAIMINE ROUN

SENIOR FULL STACK DEVELOPER | REACT · TYPESCRIPT · NODE.JS · AWS · AZURE

Sherbrooke, QC, Canada | +1 (873) 344-1321 | abdouroun@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 7+ years of experience building scalable SaaS applications and enterprise web platforms using React, TypeScript, Node.js, and Express.js. Experienced in frontend architecture, REST API integration, cloud-based solutions on AWS and Microsoft Azure, and reusable software components for platforms serving 200,000+ users. Proven ability to accelerate delivery, lead cross-functional development initiatives, mentor engineers, and collaborate with architects, product teams, and stakeholders.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6+), Redux, Gatsby, Vite, HTML5, CSS3, SCSS, Responsive Design

Backend & APIs: Node.js, Express.js, Symfony/PHP, REST APIs, GraphQL, Strapi CMS, SQL, RabbitMQ

Cloud & DevOps: AWS (S3, SQS, SNS, EC2), Microsoft Azure (API Management, Functions, Blob Storage, Static Web Apps), Docker, CI/CD, Azure DevOps, Git

Architecture & Testing: SOLID, Design Patterns, Domain-Driven Design (DDD), Microservices, Jest, PHPUnit, Unit and Integration Testing, TDD, Code Reviews

Collaboration & Tools: Agile/Scrum, Jira, Notion, Postman, Figma, GitHub Copilot, Codex, Claude

PROFESSIONAL EXPERIENCE

Senior React Frontend Developer (Senior Consultant) | CGI

September 2022 – Present | Sherbrooke, QC, Canada

Client: City of Laval — Mon Dossier citizen platform (200,000+ users)

- Refactored complex React forms into reusable modules, reducing delivery time for new forms from **4 weeks to 1 week (75% reduction)** and enabling parallel development.
- Designed and implemented a reusable React and TypeScript component library to standardize interfaces and accelerate development across citizen-facing workflows.
- Integrated and tested a secure online payment journey through municipal APIs, including response handling, error management, and user-facing workflows.
- Proposed and obtained leadership approval for a staff portal reusing citizen-portal forms, with a projected **50% reduction in implementation time** by eliminating duplicate frontend and CRM development.
- Mentored 3 junior developers, conducted code reviews, contributed to architecture decisions, and collaborated with stakeholders through Agile ceremonies and sprint demonstrations.
- Applied GitHub Copilot to support component refactoring and implementation, with systematic code review and testing.
- **Exceeded performance expectations in four consecutive annual reviews (2023–2026).**

Technologies: React, TypeScript, Redux, Gatsby, Strapi, Azure Functions, Azure API Management, Azure Blob Storage, Azure Static Web Apps, Azure DevOps, Git.

Team Lead | Tamtam International

January 2021 – August 2022 | Morocco

Technical and operational lead for a SaaS platform serving 800+ Belgian accounting-firm clients.

- Led delivery of three major initiatives (Dashboard, PowerTeam, Directory), coordinating frontend and backend development and achieving **95% client satisfaction**.
- Managed and coached a team of 7 developers, overseeing sprint planning, technical discussions, code reviews, and delivery coordination.
- Developed a multi-tenant authorization module for PowerTeam and maintained bidirectional synchronization with Syneton through REST APIs.
- Collaborated directly with Belgian clients to gather requirements, prioritize backlogs, validate deliverables, and align technical implementation with business needs.
- Resolved critical production incidents within 4 hours, minimizing disruption and maintaining service continuity.
- Recruited and trained 12 final-year interns, 10 of whom transitioned into full-time positions.

Technologies: React, TypeScript, Node.js, Express.js, Symfony/PHP, SQL, RabbitMQ, REST APIs, Docker, AWS (S3, SQS, SNS, EC2), Git, Jira.

Full Stack Developer | Tamtam International

February 2019 – December 2020 | Morocco

- Developed automated interactive accounting dashboards adopted by more than 50 professional firms.
- Integrated Belgian tax-institution APIs to automate financial-data synchronization.
- Contributed to the PowerTeam capacity-planning module, improving profitability forecast accuracy by **25%**.
- Implemented unit and integration tests with over **80% coverage** on targeted modules, helping reduce production regressions.
- Delivered three client onboarding and training workshops, improving feature adoption by **20%**.

EDUCATION

Bachelor’s Degree in Network & Information Systems Engineering

Faculty of Sciences and Techniques, Morocco | 2016–2019 | MIFI Comparative Evaluation: Bachelor’s in Computer Engineering

University Technology Diploma (DUT) in Computer Science

Higher School of Technology, Morocco | 2014–2016 | MIFI Comparative Evaluation: Diploma of College Studies (DEC) in Computer Science

CERTIFICATIONS

SAFe® 6 Practitioner | Google AI Essentials | Google AI Professional Certificate

Google Project Management Professional Certificate — In Progress | AI-Assisted Front-End Development (Codecademy) — In Progress

LANGUAGES

French: Bilingual | English: Professional | Arabic: Native
